```

File/Directory Descriptions

- **Birth & Breastfeeding ICD 10 codes.pdf**: An external mentor provided document that contains Health Informatics codes to be used in the project.

- **blankPortal.png**: Screenshot of the main page of the care provider's web portal.

- **catalog(.md/.pdf)**: The provides the table of contents of the "Final Delivery" directory and short descriptions of each file.

- **care_portal.png**: Screenshot of care provider web portal.

- **chart.png**: Screenshot of the chart used on the web portal.

- **Deliverable 1 Presentation.pdf**: The slides used for the first presentation; also contains a video link to the presentation.

- **Deliverable 4 Presentation.pdf**: The slides used for the fourth presentation; also contains a video link to the presentation.

- **docker-compose.yml**: A file used for multiple Docker containers.

- **EMR link to NEWT InstructionsUpdated.pdf**: An external mentor provided document that explains how to use/integrate the Newborn Weight Tool (NEWT).

- **figures (Directory)**: Directory that stores the graphics used in the special instructions and manuals .md files.

- **Final Gantt Chart – We Didn't Start the FHIR.pdf**: The team's final project Gantt Chart.

- **iOS_app.png**: Screenshot of iOS application.

- **iOS_Concern.png**: Screenshot of "Submit a Concern" screen on iOS application.

- **iOS_Hospital_Alert.png**: Screenshot of alert message before sending hospital data on iOS application.

- **iOS_Hospital_Send.png**: Screenshot of "View/Send Hospital Data" screen with send button on iOS application.

- **iOS_Hospital.png**: Screenshot of "View/Send Hospital Data" screen on iOS application.

- **iOS_Log_Out.png**: Screenshot of "Me" menu screen with the "Log Out" option emphasized on the iOS application.

- **iOS_Log.png**: Screenshot of the "Log" screen on the iOS application.

- **iOS_Login.png**: Screenshot of the "Login" screen with the login button emphasized on the iOS application.

- **iOS_Me_Concern.png**: Screenshot of "Me" menu screen with the "Submit a Concern" option emphasized on the iOS application.

- **iOS_Me_Edu.png**: Screenshot of "Me" menu screen with the "View Educational Information" option emphasized on the iOS application.

- **iOS_Me_Hospital.png**: Screenshot of "Me" menu screen with the "View/Send Hospital Data" option emphasized on the iOS application.

- **iOS_Me_Profile.png**: Screenshot of "Me" menu screen with the "View My Profile" option emphasized on the iOS application.

- **iOS_Questionnaire.png**: Screenshot of the questionnaire on the iOS application.

- **iOS_Record.png**: Screenshot of the "Record" screen on the iOS application.

- **iOS_User_Pass.png**: Screenshot of the login screen with the username and password filled out on the iOS application.

- **Manual – We Didn't Start the FHIR(.md/.pdf)**: Provides instructions on how to use the Care Provider's Web Portal and the iOS application.

- **motherInfo.png**: Screenshot of the mother's information shown in the web portal.

- **patientInfo.png**: Screenshot of the whole web portal that shows patient information.

- **physicianPortal (Directory)**: Directory that stores the care provider's web portal graphics used in .md files.

- **questionnaire.png**: Screenshot of the questionnaire on the web portal.

- **recommendation.png**: Screenshot of the patient referral recommendation alert on the web portal.

- **Research (Directory)**: Directory that stores research documents used during the project's lifecycle.

- **Special Instructions – We Didn't Start the FHIR(.md/.pdf)**: Instructions for the Instructor(s) and Teacher Assistant(s) to startup the Final Project applications to the point where the system is running and ready.

- **xcode_open.png**: Screenshot of the project's workspace file to open in Xcode.

- **xcode_play.png**: Screenshot of Xcode with emphasis on the play button.
